**For RCIA teams, parishioners, priests, deacons,
pastoral administrators, sisters, & parish staffs**

**In this hands-on learning process, you and your team
will learn how to plan and celebrate the major rites of the RCIA.
You will learn how to lead a catechetical process based on those celebrations.**

**This institute will equip your team with the skills they need to plan, implement,
and evaluate powerful RCIA rituals.**

They will discover, step-by-step, exactly how to upgrade the liturgical celebrations in your parish.

In this hands-on learning process, you and your team will learn how to plan and celebrate the major rites of the RCIA.

They will learn how to lead a catechetical process that is based on those celebrations.

- **Participants will learn how to prepare the assembly for full, conscious, and active participation in the rites.**
- **They will learn how to apply the twelve liturgical principles and the four elements every liturgy must have.**
- **They will learn how to catechize directly from the rites.**
- **They will learn how to know when it is okay and even necessary to adapt the rites and when it is better to just follow the book.**

We will accomplish this by celebrating adapted versions of two of the RCIA rites, followed by mystagogical reflection on the rite and application of practical principles for both liturgical celebration and liturgical catechesis.
