

IMAGINE

The proposed design above (seen from where the organ is now located) shows the altar in the center of the space. The cross and ambo is shown on the North wall. The sliding wall into the Social center is shown in its current location. Note the ceiling and the LIGHTING proposal.

These are the ideas presented at the full Parish Gathering on September 25, to SPARK our Imagination for our Worship Space.

These images continue to be available on the Parish Website: blessedtrinitymissoula.org Click the LINK on the opening page.

At the September 25 gathering participants suggested that we “arrange” our worship space in accord with this “design” in order to determine if we desire to continue with this suggestion.

**SO...during the MONTH OF NOVEMBER
the seating, altar and ambo will be arranged
in accord with the image presented.**

This images shows the architectural renderings of the proposed worship space, and gathering space.

IMAGINE

MAINTAIN RENEW IMAGINE

BLESSED TRINITY CATHOLIC COMMUNITY

This view is where the altar is currently located. Note the suggested location of the icon of the Blessed Trinity, which in this design, is the focus of this space. On either side of the Icon is a proposed location for the Organ pipes/cabinet. The organ console, has been placed under the icon, the piano to the right. The chair in front of the organ console is the “presider’s Chair.”

The Image of Mary (in this suggestion, an Icon) is located in this preliminary design where the current West entrance is located. That entrance in this proposal is eliminated.

NEXT STEPS....Following the “November experimentation” the Strategic Planning Team will meet to design a process of evaluation of these concepts and a process to engage every parishioner in the next steps. It is important to remember “decisions” have not yet been made. We are still in the “imagination” stage. The ideas, input and reflections of very parishioner is essential.
