

Blessed Trinity Renovation Project

UPDATE...

Parish staff, leadership team chairs and architects have been meeting regularly throughout the summer.

A joint meeting of Strategic Planning Team, Pastoral Council, Capital Campaign Team, Finance Council, and Pastoral Staff also occurred recently.

PHASE ONE OF THE PROJECT WILL INCLUDE:

- ♦ Bathrooms (fully accessible);
- ♦ Worship Space:
Blessed Sacrament Chapel, Font, Altar, Ambo,
Reconciliation Chapel, Sacristy, seating, carpeting, painting etc.

We are awaiting the City of Missoula Building Permit, and a detailed cost analysis from our contractor for Phase One. When this information is finalized construction will begin. It may be necessary, though this has not yet been determined, to celebrate Mass on a few weekends in the parish hall.

The LAND SALE is moving forward pending finalization of the City of Missoula land boundary change. Once that is concluded the sale will be finalized. The Buyer is anticipated to begin construction this Spring. Once the land sale is finalized, the parking lot will be reconfigured to include the north & east side of the church. That portion of the project will begin soon after the land is sold in order to accommodate parking needs in accord with City requirements. Parking lot site plan engineering is close to completion (in accord with City of Missoula requirements).

Moving Forward...NOW!
